INDEX OF AUTHORS

Volume 28

January 1962 • June 1962

Journal of the National Cancer Institute

and

NCI Monographs

Page numbers in italics indicate senior authorship
Page numbers in boldface type indicate Discussants

Adams, R. A., NCI Monogr. No. 7, 173
Alexander, Hattie E., NCI Monogr. No. 7, 239
Allen, Anton M., *1125*
Andervont, Howard B., *159*, *1153*, 1219
Auersperg, Nelly, *605*
Axelrad, Arthur A., *1065*

Barile, Michael F., NCI Monogr. No. 7, **50**
Barski, G., *801*, *823*
Baserga, Renato, *331*
Bayreuther, Klaus, NCI Monogr. No. 7, **88**
Beard, Dorothy, 75, 1003
Beard, J. W., 75, 1003
Beaudreau, G. S., 75
Becker, Caroline, 75
Belkin, Morris, *187*
Berman, Lawrence, NCI Monogr. No. 7, 17
Bern, Howard A., 1233
Billingham, R. E., *365*
Bonar, R. A., 1003
Brand, K. G., *147*, NCI Monogr. No. 7, **102**
Briggs, George M., **341**
Brown, Arthur, NCI Monogr. No. 7, **262**
Burmester, B. R., 1111
Burrell, R. J. W., *495*

Carpenter, Charles M., 853
Castor, C. William, NCI Monogr, No. 7, **156**
Chirigos, Michael A., 1053, 1355
Christensen, H. E., *1*
Chu, Ernest H. Y., NCI Monogr. No. 7 *55*
Clark, William Arthur, NCI Monogr. No. 7, **4**
Clausen, J. J., *117*
Cole, Leonard J., **1031**
Colter, John S., NCI Monogr. No. 7, **246**
Congdon, C. C., *305*
Conklin, James L., NCI Monogr. No. 7, 123
Coombs, R. R. A., NCI Monogr. No. 7, *91*
Coriell, Lewis L., NCI Monogr. No. 7, *33*
Cornefert, Fr., 801, 823
Cotran, Ramzi S., *1193*
Coval, Helen Morton, NCI Monogr. No. 7, **210**
Craig, J. M., NCI Monogr. No. 7, 173

Dawe, C. J., 629
de Bruyn, W. M., *1333*
Defendi, V., 365
Deinhardt, Friedrich, NCI Monogr. No. 7, **172**
Deringer, Margaret K., *203*
de Vries, M. J., 587
Dewey, Maynard M., NCI Monogr. No. 7, 123
Drake, George, Jr., *853*
Dunham, Lucia J., 467
Dunn, John E., Jr., 853
Dunn, Thelma B., 159, 649, 1153

Earle, Wilton R., 763, NCI Monogr. No. 7, *213*

Falk, Hans L., *699*, 725
Fiala, Anna, 1269
Fiala, Silvio, *1269*
Fisher, J. M., 1165
Foley, G. E., NCI Monogr. No. 7, 173
Ford, C. E., NCI Monogr. No. 7, *105*
Fortner, Joseph G., 1193

Ginsburg, Haim, *1391*
Glynn, John P., 1053
Goldin, Abraham, 1053, **1355**
Grantham, Flora H., 211
Greco, Antoinette E., **1095**
Gross, M. Adrian, *1111*
Gullino, Pietro M., *211*

Haenszel, William, *947*
Handler, A. H., NCI Monogr. No. 7, 173
Hansen-Melander, E., 1333
Hardy, Walter G., 187
Hartley, Janet W., 629
Hawryluk, Annette P., 605
Hayflick, Leonard, NCI Monogr. No. 7, **63**
Hellström, K. E., 99
Herrold, Katherine M., *467*
Holland, J. J., NCI Monogr. No. 7, 273
Hull, Robert N., NCI Monogr. No. 7, *161*
Humphreys, Stewart R., *1053*, 1355

Ivanova, Olga J. 515

Zeigel, Robert F., *269*

INDEX OF SUBJECTS

Volume 28

January 1962 · June 1962

Journal of the National Cancer Institute and NCI Monographs

Achlorhydria, gastric, in Mexicans, Caucasians, and Japanese in Los Angeles, 853
Actinomycins, effect of various, on transplantable human tumors, 353
Adenomatosis, pulmonary, incidence of, induced in mice, 1043
Adrenal glands, effect of hormones on mammary-tumor development in ovariectomized-adrenalectomized mice, 1233
Age, influence of, on susceptibility of mice to lymphoma induction by Gross' Passage A virus, 1065
Amethopterin, folic-acid deficiency on effect of, on lymphocytic neoplasms, 341
Amino acid(s):
  composition of, in avian myeloblastosis virus, quantitative, 1003
  incorporation of, into proteins inhibited by antimetabolites, 1165
Amyloidosis, comparative studies of casein-induced and reticulosarcoma-induced, 1
Announcements:
  Gordon Research Conference, 1253
  Manuscripts Approved for JNCI, 245, 494, 747, 1013, 1254, 1453
  NCI Monograph No. 6, 245
  NCI Monograph No. 7, 747
  NCI Monograph No. 8, 1253
  Research Library Fire Losses, 1453
Announcements—Continued
  Symposium: Fundamental Cancer Research, 493
Antibody, versus measles virus, fluorescein-labeled, staining of infected HEp-2 cells with, 35
Antigen(s) *see also* Antibody; Immunity studies
  species-characterizing, of cultured cells, NCI Monogr. No. 7, 91
Antimetabolites *see also* Amethopterin; S-Carbamylcysteine
  folic acid antagonists, effect on homograft response to L1210 leukemia, 1053
Ascites tumor(s) *see also* Lymphoid tumors
  induction *in vitro* of cytoplasmic vacuoles by autonomic drugs, 187

Benzo[*a*]pyrene:
  induction of papillomas and carcinomas by intratracheal instillation of, in hamsters, 467
  metabolism of, in the rat, 699, 725
Bile:
  formation of, in ethionine-induced transplantable tumor, 1425
  metabolites of benzo[*a*]pyrene in, 699, 725
Blood, flow of, in tumors and its regulation by drugs, cold, or ganglionectomy, 211

635010—62——20

Bone:
——— marrow,
effect of injection of foreign, on the lymphatic tissues of normal mice, 305
homologous transplantation of, in neonatal rats, 365
tumors of, due to an internally deposited radioisotope (strontium-90), 587
Books Received, 749
Breast *see also* Mammary gland(s)
autopsy study of adult human, NCI Monogr. No. 8, 1

Cancer *see also* Names and types of tumors
in children,
birth order, birth weight, and maternal age, 231
prenatal X-ray exposure, 1173
epidemiology, esophogeal among Bantu, 495
gastric, and achlorhydria, 853
S-Carbamylcysteine, inhibition of protein synthesis by, 1165
Carbon tetrachloride, effect of, on metabolism and carcinogenicity of benzo[*a*]pyrene, 725
Carcinogenesis *see also* Names and types of tumors
deoxynucleotidase activity in rat liver during, 1269
by 7,12-dimethylbenz[*a*]anthracene and cellophane films, comparative histochemical study, in subcutaneous connective tissue of rats, 515
effect of carbon tetrachloride on metabolism of benzo[*a*]pyrene in rats and mice, 725
morphology and transplantability of polyoma-induced tumors, 859
radioactive materials, pattern of tumors in mice given strontium-90, 587
testicular changes in mice by diethylstilbestrol, 1219
unresponsiveness of precancerous hepatic tissues and hepatomas to a mitotic stimulus, 753
Carcinogens *see* Benzo[*a*]pyrene; Carbon tetrachloride; 7,12-Dimethylbenz[*a*]anthracene; Mammary-tumor agent
Carcinomas, human, deoxyribonucleic acid content of, 1207
Catalase:
activity of, in liver of rats, effects of tumor and bacterial polysaccharides on, 845
level of, in hepatomas induced by ethionine, 1411
Cell(s):
animal strains, program on characterization and preservation of, NCI Monogr. No. 7, 3
assessment of potential malignancy of cultured, NCI Monogr. No. 7, 173
characterization of,
cytological and cytochemical, *in vitro*, NCI Monogr. No. 7, 123
and identification of, by mixed agglutination, NCI Monogr. No. 7, 91
strains, by viral susceptibility, NCI Monogr. No. 7, 161
in tissue culture, NCI Monogr. No. 7, 147
chromosomal stabilization of, NCI Monogr. No. 7, 55
culture lines, contamination of, NCI Monogr. No. 7, 33
genetic studies with lines of human, NCI Monogr. No. 7, 75
growth and survival of, in spontaneous breast cancer of C3H mouse, studied by labeling with tritiated thymidine, 1015
mast, mitosis and binucleation of, in rats, 1125
methodology for obtaining preparations of, to study human somatic chromosomes, NCI Monogr. No. 7, 105
neoplastic, human, deoxyribonucleic acid in, 1207
nuclear bleb as an interphase marker in pig kidney, *in vitro*, 1247
proliferation of, studied by isotope techniques with H^3-labeled thymidine, 331
strain chracteristics, quantitative and qualitative preservation of, NCI Monogr. No. 7, 17
variation,
and interaction of, with viruses, NCI Monogr. No. 7, 249
morphologic, under controlled experimental conditions, NCI Monogr. No. 7, 213

Cell(s)—Continued
virus absorbed by susceptible and insusceptible HeLa, NCI Monogr. No. 7, 273
Cellophane, effects of implanted films on subcutaneous connective tissue of rats, compared with effects of 7,12-dimethylbenz[*a*]anthracene, 515
Cervix, cancer of, human, culture of epithelial cells from, with chromosome observations, 605
Chemotherapy *see also* Antimetabolites
effect of,
actinomycins on transplantable human tumors, 353
Cytoxan on L1210 cells in the central nervous system and the spread of leukemia, 1355
on leukemia in mice, 569
induction of vacuoles in ascites tumors by autonomic drugs, 187
inhibition of lymphocytic neoplasms by amethopterin and folic-acid deficiency, 341
Chromosomes *see also* Genetics
analysis of, in 16 substrains of a mouse lymphosarcoma *in vitro* and *in vivo*, 1333
changes in, combined cell strains in tissue culture, 801
in cultures derived from human cervical carcinomas, 605
methodology of, analysis, in man, NCI Monogr. No. 7, 105
stabilization of cell strains, NCI Monogr. No. 7, 55
studies of, in 31 cultured mammalian cell lines, 117
unresponsiveness of precancerous hepatic tissues and hepatomas to mitotic stimulus, 753
Cinemicrography, use of, in analysis of cell populations *in vitro*, 763
Corticosterone *see* Hormones
Cortisol *see* Hormones
Cytology, of cultured HEp-2 cells infected with measles virus, 35

Deoxycorticosterone *see* Hormones
Deoxynucleotidase, in liver and in tumors, 1269
Deoxyribonucleic acid:
in human tumor cells, 1207
increase of, in mast cells, 1125
Deoxyribonucleic acid—Continued
metabolism, in poliovirus and vaccinia virus-infected HeLa cells, NCI Monogr. No. 7, 205
Diet(s) *see also* Protein
folic-acid deficiency on effect of amethopterin on lymphocytic neoplasms, 341
Diethylstilbestrol, testicular changes in mice by, 1219
7,12-Dimethylbenz[*a*]anthracene:
effects of, on subcutaneous connective tissue of rats, compared with cellophane films, 515
lung cancer induced in rats by intratracheal intubation of, 1305

Ehrlich ascites tumor, inhibition of protein synthesis by S-carbamylcysteine in, 1165
Electron microscopy, cytogenic study of embryonic chick pancreas, 269
Embryo(s), testicular teratomas in mouse, 247
Environment:
high altitude, effect on lung-tumor occurrence in strain A mice, 55
spontaneous tumors in wild house mice, 1153
Enzyme(s) *see also* Names of
deoxynucleotidase in rat liver and tumors, 1269
Epidemiology:
cancer deaths in children, 231
esophageal cancer among Bantu, 495
Epithelium, proliferative, changes in pathology of human breast, NCI Monogr. No. 8, 1
Erythroblastosis (avian) *see* Virus
Estradiol *see* Hormones
Estrogen, transplantability of testicular tumors induced by, 99
Ethionine:
transplantable hepatoma induced by, 1425
catalase activity in, 1411

Folic acid *see* Diet

Genetics *see also* Chromosomes
chromosomal changes and hybrid cells in tissue culture, 801
mammalian, in developmental patterns of teratomas in fetal mice, 247
studies with human cell lines, NCI Monogr. No. 7, 75

Glucosamine, in virus of avian myeloblastosis, 1003
Glucose:
effect of,
on inhibition of protein synthesis by antimetabolites, 1165
on *p*H of rat tumors, 561
Gonads, effect of hormones on mammary-tumor development in ovariectomized-adrenalectomized mice, 1233
Grafts *see also* Transplantation; Vascularization
homograft,
response, with L1210 leukemia, 1053
skin, tolerance to, in neonatal rats, 365
Growth:
effect of methylcellulose on, of lymphosarcoma, 1255
retardation of,
in neonatal rats given homografts, 365
in newborn mice, 437, 455
of spontaneous breast cancer of C3H mouse, survival of cells labeled with tritiated thymidine, 1015

Hemangioendothelioma(s), in wild house mice, 1153
Hepatoma(s) *see also* Liver tumors
ribonucleases of, 1095
transplantable, induced by ethionine, 1425
catalase activity in, 1411
in wild house mice, 1153
Histochemistry, of cells infected with virus of avian myeloblastosis, 75
Hormones *see also* Adrenal glands; Diethylstilbestrol; Estrogen
effect of, on mammary-tumor development from transplanted hyperplastic nodules in mice, 1233
Hydrogen-ion concentration, effect of glucose on tumor *p*H, 561
Hyperplasia, and hypertrophy, compensatory, effect on neoplasia in kidney of mice after X irradiation, 1031

Immunity studies:
in identification and characterization of cells, NCI Monogr. No. 7, 91
with parotid-tumor (polyoma) virus, transfer of immunity to mouse litters from serologically positive mothers, 629
Immunity studies—Continued
species-specific hemagglutination tests on cell cultures, 147
uterus as a site of immunity against transplantable tumors, 927
Iron, plasma, in rats, effects of tumor and bacterial polysaccharides on, 845

Kidney tumors, in mice after unilateral nephrectomy and X irradiation, 1031

Leukemia *see also* Lymphoid tumors; Reticulum-cell sarcoma
in children, and prenatal X-ray exposure, 1173
induction of, by virus produced by tissue cultures of leukemic mouse cells, 1391
virus of mice, 1291
Lipopolysaccharides, tumor and bacterial, effects on liver catalase and plasma iron, 845
Liver:
deoxynucleotidase activity in rat, and certain tumors, 1269
ribonucleases of, 1095
unresponsiveness of precancerous hepatic tissues and hepatomas to a mitotic stimulus, 753
Liver tumor(s) *see also* Hepatomas
blood flow in, as affected by various agents, 211
Lung cancer, relation to residence and smoking histories, 947
Lung tumor(s):
induced,
adenomatosis in mice, 1043
in rats by 7,12-dimethylbenz[*a*]anthracene, 1305
of the tracheobronchial mucosa with benzo[*a*]pyrene in hamsters, 467
spontaneous,
in strain A mice at high altitude, 55
in wild house mice, 1153
Lymphocytes, association with runt disease in rats homografted as neonates, 365
Lymphoid tissue, effect of foreign bone marrow on, in mice, 305
Lymphoid tumor(s) *see also* Ascites tumors; Leukemia
leukemia in mice, 1291
L1210, spread of, in the central nervous system in Cytoxan-treated animals, 1355

Lymphoid tumor(s)—Continued
in milk-agent-free substrain DBA/2eB, 203
mouse, chromosome analysis of substrains *in vivo* and *in vitro*, 1333
Murphy-Sturm rat, effect of methylcellulose on the growth of, 1255
viral, effect of age on incidence and type, 1065
Lymphomatosis (avian) *see* Virus

Mammary gland(s) *see also* Mammary tumors
proliferative epithelial changes in pathology of, NCI Monogr. No. 8, 1
Mammary tumor(s):
in milk-agent-free mice, procured from fertilized ova of strain DBA/2 transferred to strain C57BL, 203
responsiveness and progression of, in high-cancer-strain mice, 911
Mammary-tumor agent, in strain RIII mice, 159
Metabolism, of benzo[*a*]pyrene in rats, 699, 725
Methylcellulose, effect of, on growth of Murphy-Sturm lymphosarcoma in rats, 1255
Mitosis:
growth and survival of cells labeled with tritiated thymidine in spontaneous breast cancer of C3H mouse, 1015
as related to deoxyribonucleic acid content of human tumor cells, 1207
unresponsiveness of precancerous hepatic tissues and hepatomas, 753
Myeloblastosis (avian) *see* Virus

Neoplasms, lymphocytic, effect of steroids and fluorinated pyrimidines alone and in combination on, 569

Ovarian tumor(s), in wild house mice, 1153
Oxygen, tension, effects on growth of cultured cells, 897

Pancreas, of the embryonic chick, cytogenic study of, 269
Plasma-cell tumor(s):
bone lesions produced by, 649
in Syrian golden hamster, 1193
Progesterone *see* Hormones
Progression, of mammary tumors, in high-cancer-strain mice, 911
Protein *see also* Diet
synthesis,
in HeLa cells, NCI Monogr. No. 7, 205
inhibition by S-carbamylcysteine, 1165

Radioactive material *see also* Tracer studies
strontium-90, pattern of tumors produced in mice, 587
Residence history, relationship to lung cancer, 947
Reticulum-cell sarcoma(s):
comparison of amyloidosis induced by, with casein-induced amyloidosis in mice, 1
in wild house mice, 1153
Ribonucleases, of liver and hepatoma, sulfhydryl dependence of, 1095

Salivary gland(s), tumors of, varieties of, induced by polyoma virus, 437, 455
Sarcoma(s) *see also* Ascites tumors; Lymphoid tumors; Reticulum-cell; Walker carcinosarcoma 256
human, deoxyribonucleic acid content of, 1207
Serum, protein, abnormality with Syrian golden hamster, plasmacytoma, 1193
Smoking (tobacco), relationship to lung cancer, 947
Spleen, effect of bone marrow injections in normal mice on, 305
Stains and staining:
with acridine orange and fluorescein-labeled antibody of cultured HEp-2 cells infected with measles virus, 35
Feulgen and methyl green, of mast cells to demonstrate mitosis, 1125
Statistics, cancer:
cancer deaths in children, 231
childhood, and prenatal X-ray exposure, 1173
gastric achlorhydria in Los Angeles, 853
relation of lung cancer to residence and smoking histories, 947
Strontium-90 *see* Radioactive material

Technique(s):
bioassay, virus, avian visceral lymphomatosis and erythroblastosis, 1111
biochemical,
autoradiography and tritium-labeling for the study of cell proliferation, 331

Technique(s)—Continued
biochemical—Continued
spectrophotometric, fluorometric, chromatographic, and tracer methods used in studies on the metabolism of benzo[*a*]pyrene, 699, 725
biophysical, freezing of living cells, NCI Monogr. No. 7, 7
cell-culture, methods in maintaining aseptic, NCI Monogr. No. 7, 33
of chromosomal analysis in man, NCI Monogr. No. 7, 105
intratracheal instillation of benzo[*a*]pyrene in hamsters, 467
methodology for preparing and preserving seed stocks of cultured cell strains, NCI Monogr. No. 7, 17
Testicular, changes in mice, induced by diethylstilbestrol, 1219
Testicular tumor(s):
teratomas in fetal mice, 247
transplantation of estrogen-induced interstitial-cell tumors, 99
Thymidine, tritium-labeled, for study of cell proliferation, 331
Thymus, tumors of, in mice of different ages with Gross' virus, 1065
Tissue culture:
biochemistry of cells in, NCI Monogr. No. 7, 147
chromosomal analysis of 31 mammalian cell lines in, 117
cinemicrographic analysis of cell populations in, 763
contamination, as revealed by species-specific hemagglutination tests, 147
cytological and cytochemical characterization of cells grown in, NCI Monogr. No. 7, 123
enterovirus ribonucleic acid in, NCI Monogr. No. 7, 239
of epithelial cells derived from human cervical carcinomas, chromosome observations in, 605
freezing of living cells, NCI Monogr. No. 7, 7
growth in, as affected by oxygen tension, 897
hybrid cell types developed in, 801
immunity studies on "transformed," nontransformed, and primary cultures, 147
leukemia induction in, in mice by Moloney virus, 1391
Tissue culture—Continued
mouse cells, various, latency and vertical transmission of polyoma virus in, 823
nutrients, effect of human and bovine fetal serum on rabbit cells, 679
of pig kidney cells, nuclear bleb as a stable interphase marker in, 1247
of substrains of a mouse lymphosarcoma, chromosome analysis in, 1333
Tobacco *see* Smoking
Tracer studies *see also* Radioactive material
carbon-14-labeled, metabolism of benzo[*a*]pyrene, 699, 725
tritium-labeled, tritiated thymidine for the study of cellular proliferation of normal and tumor tissues, 331
Transplantation *see also* Grafts; Vascularization
effect of hormones on mammary-tumor development in transplanted hyperplastic nodules in mice, 1233
hetero, of *in vitro* cell lines from human and animal, normal and neoplastic origin, in Syrian hamsters, NCI Monogr. No. 7, 173
of human tumors in conditioned rats in chemotherapy, 353
of plasma-cell tumors, bone lesions produced by, 649
of polyoma-induced tumors, 859
of testicular interstitial-cell tumors in strain A mice of different genetic types, 99
transplantable tumors, ethionine-induced hepatoma, 1411, 1425

Uterus, site of immunity against transplantable tumors, 927

Vacuoles, induction of, by autonomic drugs in ascites tumors, 187
Vascularization *see also* Grafts; Transplantation
of tumors grown by tissue-isolated method, 211
Viroplasts, in cells infected with virus of avain myeloblastosis, histochemical study of, 75
Virus *see also* Mammary-tumor agent
of avian myeloblastosis,
amino acid composition of, 1003
histochemical study of, in infected cells, 75

Virus—Continued
bioassay, avian visceral lymphomatosis and erythroblastosis, 1111
differences in susceptibility of cultures to selected group of, NCI Monogr. No. 7, 161
measles, Edmonston strain, effect on cytology of HEp-2 cells in tissue culture, 35
of mouse leukemia, 1291
production of, in tissue culture of normal and leukemic cells, 1391
polio,
adsorption of, to cell cultures from animal sources, NCI Monogr. No. 7, 273
and vaccinia, role of deoxyribonucleic acid metabolism in replication of, NCI Monogr. No. 7, 205
polyoma,
dwarfing, tumor incidence, and antibody response in newborn mice, 437, 455
Virus—Continued
polyoma—Continued
latency and vertical transmission of, in cultured mouse cells, 823
morphology and transplantability of tumors induced by, 859
response of mouse litters to, in relationship to antibody status of mothers, 629
ribonucleic acid derived from animal, NCI Monogr. No. 7, 239
variation and interaction of cells with, NCI Monogr. No. 7, 249

Walker carcinosarcoma 256, lipopolysaccharide fractions of, effects on liver catalase and plasma iron in rats, 845

X-ray (roentgen) irradiation:
in carcinogenesis, tumors of kidney in mice after unilateral nephrectomy, 1031
effects of, prenatal exposure and cancer in children, 1173
